

KAMUTAM VINAY

Aspiring DevOps Engineer | Cloud Technology Graduate | Associate System Engineer

Bengaluru, India | +91 7995172713 | vinaykamutam07@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

IT professional with 2+ years of enterprise-level service desk experience and a B. Tech in Computer Science specializing in Cloud Technology & Information Security. Actively transitioning into DevOps by independently building hands-on projects covering CI/CD pipelines, containerization, Kubernetes orchestration, and cloud infrastructure automation on AWS. Brings a strong foundation in ITIL, incident management, Linux administration, and scripting — combined with a genuine passion for automation, cloud infrastructure, and continuous delivery. Seeking a Junior DevOps or Cloud Engineer role to apply and grow these skills professionally.

DEVOPS PROJECTS (SELF-INITIATED)

End-to-End CI/CD Pipeline — Spring Boot App on AWS — AWS EC2 · Jenkins · Maven · Docker · Docker Hub · Git · Linux

- Designed and built a complete CI/CD pipeline from scratch using Jenkins hosted on AWS EC2
- Automated Maven builds triggered on every GitHub push; built and pushed versioned Docker images to Docker Hub
- Configured secure SSH key-based authentication between Jenkins master and the target EC2 deployment server
- Automated container replacement on each deployment — pulling latest image, stopping old container, and starting the updated application

GitHub: github.com/vinay-kamutam/springboot-cicd-demo

GitOps Deployment — Go Web App on Amazon EKS — Go · Docker · Kubernetes · Amazon EKS · Argo CD · GitHub

- Containerized a Go web application using Docker and deployed it to an Amazon EKS (managed Kubernetes) cluster
- Implemented GitOps workflow using Argo CD — Kubernetes cluster state automatically synchronized from GitHub repository
- Authored Kubernetes Deployment and Service manifests; validated deployment health via Argo CD and Kubernetes dashboards

GitHub: github.com/vinay-kamutam/go-web-app

AWS Infrastructure Provisioning with Terraform — Terraform · AWS EC2 · VPC · IAM · Security Groups · S3

- Provisioned complete AWS infrastructure (EC2, VPC, Subnets, Security Groups, IAM roles, S3 buckets) using Terraform — full IaC approach
- Developed modular, reusable Terraform configurations for consistent and repeatable environment deployments
- Executed full IaC lifecycle: init, validate, plan, apply, destroy — verified all resources in AWS Management Console

TECHNICAL SKILLS

Cloud	AWS (EC2, VPC, IAM, S3, CloudWatch, Security Groups, Systems Manager)
CI/CD & GitOps	Jenkins, Git, GitHub, Maven, Argo CD
Containers & K8s	Docker, Docker Hub, Kubernetes, Amazon EKS
Infra as Code	Terraform
Scripting	Python, Bash
Programming	Java, Go (basic)
Monitoring	Prometheus, Grafana

OS	Linux (Ubuntu), Windows Server
Networking	TCP/IP, DNS, HTTP/HTTPS, SSL/TLS, VPN
ITSM & Tools	ServiceNow, Active Directory, Office 365, VMware
Methodologies	ITIL, Incident Management, Change Management, Problem Management

PROFESSIONAL EXPERIENCE

Associate System Engineer | Merck KGaA, Bengaluru, India *Jul 2024 – Present*

- Provide Tier-1 IT service desk support for Windows, Office 365, Outlook, VPN, and remote access environments
- Manage and resolve incidents and service requests via ServiceNow, consistently maintaining SLA compliance
- Perform Active Directory administration: user provisioning, password resets, account unlocks, and access management
- Troubleshoot hardware, software, and network connectivity issues for enterprise end users
- Write Python and Bash scripts to automate repetitive support tasks, improving operational efficiency
- Create and maintain knowledge base articles and runbooks to support team resolution times
- Coordinate with L2/L3 teams providing detailed diagnostic documentation for issue escalation

Associate System Engineer – Intern | Randstad (Deployed at Merck KGaA), Bengaluru, India *Nov 2023 – Jul 2024*

- Delivered first-level technical support for Windows, Office 365, VPN, and remote desktop environments
- Managed incidents and service requests via ServiceNow following ITIL best practices
- Supported employee onboarding/offboarding: software installation, endpoint configuration, and IT asset inventory tracking
- Escalated complex issues to L2/L3 teams with structured troubleshooting notes to minimize resolution time

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science *2019 – 2023*

Specialization: Cloud Technology & Information Security
Sir Padampat Singhanian University, Udaipur CGPA: 7.5 / 10

CERTIFICATIONS & CURRENTLY LEARNING

- Self-learning via hands-on projects: Terraform, Jenkins, Argo CD, Docker, Kubernetes, AWS

LANGUAGES

English – Fluent | Telugu – Fluent
